Bogor Agricultural University
Department of Food Science and Technology
Darmaga Campus
PO Box 220
Bogor 16002, West Java
INDONESIA

Dear Dr. Syah:

I am pleased to inform you that on July 21, the IFT Higher Education Review Board (HERB) approved your program, B.S. in Agricultural Technology with a major in Food Technology, as meeting the IFT Undergraduate Education Standards for Degrees in Food Science. Bogor Agricultural University has the distinction of being the first program outside of North America approved by IFT. Please ensure that students, faculty and administrators understand that only students enrolled in this particular emphasis/option are eligible for IFT undergraduate scholarships.

HERB was extremely pleased with your application and appreciates you submitting photos of your laboratory and teaching facilities. Including the universities where faculty members received their terminal degrees was also helpful.

We look forward to reviewing your program again in Fall 2015. Please note that the 2011 version of the IFT Guidelines will be in place for your next review and those will be available at www.ift.org.

Thank you for your time and effort in submitting your application materials and your continued efforts in training the next generation of food scientists.

Sincerely,

Steven J. Mulvaney
Chair, Higher Education Review Board

C: George Miller, IFT Staff Coordinator
